Message from the Guest Editors

Dear Colleagues,

In recent decades, there has been a growing interest in stimuli-responsive biomaterials. Their responsiveness to biological stimuli (e.g., pH, enzymes, reduction-oxidation, glucose) and external triggers (e.g., temperature, light, ultrasound) affects their internal physicochemical properties and stabilities, and tuning the detection sensitivity, accuracy and biocompatibility, which shows potential in various biomedical applications including drug delivery, tissue engineering and diagnostics. The development of stimuli-responsive biomaterials facilitates achieving precision drug delivery, improving medical diagnostics with non- or minimally invasion, and endowing the matrices with the ability to communicate and interact with cells in tissue engineering, to promote the prosperity of precision medication. This Special Issue will focus on the design, synthesis and application of stimuli-responsive biomaterials for theranostics.

an Open Access Journal by MDPI

Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
