

nanomaterials

Dear Colleagues,

We are pleased to announce the two winners of *Nanomaterials* 2021 Travel Award (800 Swiss Francs each), given to Dr. Aleksandrs Leitis, a Ph.D. student at École polytechnique fédérale de Lausanne (EPFL), and Dr. Ekaterina Kolesova, a postdoctoral fellow at ITMO University.

2021 TRAVEL AWARD WINNERS

Dr. Leitis's work focuses on the fields of optics, photonics nanofabrication and data analysis. He plans to attend 15th International Congress on Artificial Materials for Novel Wave Phenomena METAMATERIALS 2021 in New York, USA, to present his work entitled "Functional Metasurfaces for Mid-infrared Optical Wavefront Manipulation, Sensing and Dynamic Phase Control".

Dr. Kolesova's research focuses on colloidal nanostructures, formation of multilayer structures, antibacterial therapy, photo- and sonodynamic therapy. She plans to attend Global Summit on Metamaterials, Nanophotonics and Plasmonics (METAMAT2021) in London, UK, to present her work entitled "Bactericidal Activity of Hybrid Nanostructures Based on Titania Nanoparticles".

Congratulations to Dr. Leitis and Dr. Kolesova. We are grateful to all who submitted applications.

Prof. Dr. Shirley Chiang
Editor-in-Chief, *Nanomaterials*
