

Selected Papers from "Brainstorming Research Assembly for Young Neuroscientists (BraYn)"

Guest Editor:

Dr. Giovanni Ferrara

Experimental Neuroscience Lab,
IRCCS San Martino Hospital,
16132 Genoa, Italy

Deadline for manuscript
submissions:

1 August 2024

Message from the Guest Editor

For this conference Special Issue, we welcome original articles or reviews reporting new experimental or clinical data and promoting the understanding of biological processes from different disciplines of neuroscience, including neuroimmunology, neuronal plasticity, neurophysiology, neurodegeneration, neuro-oncology, epilepsy, neurodevelopment, neurogenetics, clinical neuroscience, and neuroimaging. We aim to provide a collection of high-impact manuscripts dissecting the unknown or lesser studied aspects of neuroscience.
