### Message from the Collection Editors

Dear Colleagues,

This topic collection of *NeuroSci* is dedicated to recent advances in nervous systems; neurons and neural circuits; neuroanatomy, neurophysiology; neuropharmacology; molecular and cellular neuroscience; neuropsychology; psychiatry, cognitive and behavioral neuroscience; and computational neuroscience. It comprises a diverse selection of exclusive papers of the Editorial Board Members (EBMs) of *NeuroSci*, as well as invited papers from relevant experts. It focuses on highlighting recent interesting investigations conducted in the laboratories or clinics and represents our journal as an attractive open access publishing platform for neurology-related research data or reviews.

Prof. Dr. Lucilla Parnetti  
Dr. Federico Paolini Paoletti
