## Nursing Voice to Promote United Nations Sustainable Development Goals (SDG)

Guest Editors:	Message from the Guest Editors
Dr. Pedro Melo	Dear Colleagues,
Dr. Rosa Silva Dr. Claudia Leoni-Scheiber	The 17 Sustainable Development Goals (SDGs) proposed at the 2030 Agenda for Sustainable Development were adopted by all United Nations Member States in 2015.
Dr. T. Heather Herdman Deadline for manuscript submissions: closed (31 October 2023)	These objectives make it possible to organize a global response to challenges such as hunger, poverty, social inequalities, access to education, climate change and even community development. Nurses, in their technical and scientific individuality, have a set of sensitive responses regarding diagnoses and interventions that allow them to respond to all 17 goals.
	This Special Issue intends to present evidence of the contribution of nursing, as a science and as a profession, to the SDGs.
