Associate Professor, School of
Health Sciences, Western Sydney
University, Penrith, NSW 2751,
Australia

Deadline for manuscript
submissions:

closed (25 March 2024)

Message from the Guest Editor

Diet and nutrition play an important role in the promotion and maintenance of good health throughout the life course. In the past several years, there has been a significant attempt to reduce sugars in foods and beverages in an effort to aid the prevention of obesity and chronic diseases.

Studies indicate that the consumption of sugar-sweetened beverages (SSBs) such as sodas, sports drinks, and fruit drinks increase the risk of weight gain, type 2 diabetes mellitus, dental caries, cardiovascular diseases, and some cancers. On the other hand, the consumption of healthier beverages can have positive effects on human health. Higher milk consumption has been prospectively linked to lower body fat percentage and body mass index, and drinking water may help limit excessive weight gain.

This Special Issue of *Nutrients*, entitled “Beverage Consumption and Human Health”, welcomes the submission of manuscripts which provide robust evidence on the effects of beverage consumption on human health to drive policy and regulatory actions.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (*Nutrition & Dietetics*) / CiteScore - Q1 (*Nutrition and Dietetics*)

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
