Dear Colleagues,

The topic of this Special Issue of *Nutrients* is the clinical application of rheology of fluids and texture-modified food for patients suffering from oropharyngeal dysphagia. We will discuss the properties that cause the therapeutic effect of thickening agents and texture-modified foods, their effect on different phenotypes of patients and how they should be applied in clinical practice, and the need for evidence based classifications and recommendations.

Dr. Pere Clavé
Guest Editor

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (*Nutrition & Dietetics*) / CiteScore - Q1 (*Nutrition and Dietetics*)

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
