Message from the Guest Editors

Dear Colleagues,

This issue will review the importance of incorporating lipid injectable emulsions (ILE) in parenteral nutrition (PN) formulations. Newer ILE formulations have been recently introduced into practice in the United States. Topics to be addressed in this issue include:

- Safety and tolerability of available ILE (include filtering);
- Essential fatty acid deficiency and how to meet essential fatty acid requirements with the newer ILE products;
- Appropriate dosing of ILEs (peds and adults);
- How to incorporate the newer ILE products into practice;
- ILE use in the critically ill patient;
- ILE use in the acutely ill pediatric patient;
- The use of ILE products in the home parenteral nutrition patient (peds and adult).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (*Nutrition & Dietetics*) / CiteScore - Q1 (*Nutrition and Dietetics*)

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
