Deadline for manuscript  
submissions:

**closed (15 August 2023)**

### Message from the Guest Editor

Dear Colleagues,

Globally, the prevalence of metabolic diseases is very high, causing a great disease burden for individuals. An underlying mechanism of metabolic diseases may be chronic inflammation, which is closely related to dietary intake. However, there is a lack of extensive research on the relationship between metabolic diseases and nutritional epidemiology. With the rapid development of epigenetics and metabolic health in recent years, the complex interactions between epigenome and metabolic diseases need to be further explored. By focusing on the epigenetics and nutritional epidemiology of metabolic diseases, the journal aims to provide a theoretical basis for the prevention of metabolic diseases and contribute to the development of public health.

Prof. Dr. Bo Li

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (*Nutrition & Dietetics*) / CiteScore - Q1 (*Nutrition and Dietetics*)

## Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
