Message from the Guest Editor

Dear Colleagues,

The term, food addiction, is increasingly popular in published literature and highly topical in the mainstream media. Emerging evidence suggests that food addiction may be a previously unrecognized factor that contributes to the rise in obesity. Research suggests that similarities may exist between food addiction and other classic forms of dependence, such as those involving alcohol and drugs. This Special Issue will explore past and present research concerning food addiction.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (*Nutrition & Dietetics*) / CiteScore - Q1 (*Nutrition and Dietetics*)

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
