Nutritional Challenge in Advanced Chronic Liver Disease and Complications Related to Portal Hypertension

Guest Editors:

Prof. Dr. Antonio Colecchia

Gastroenterology Unit,
Department of Medical
Specialities (CHIMOMO),
University of Modena and Reggio
Emilia, Via del Pozzo 71, 41124
Modena, Italy

Dr. Federico Ravaioli

Department of Medical and
Surgical Sciences (DIMEC), IRCCS,
University of Bologna, Via
Massarenti 9, 40138 Bologna,
Italy

Deadline for manuscript
submissions:

closed (20 July 2023)

Message from the Guest Editors

This Special Issue aims to explore the latest and future challenges in nutritional investigation and insights that hepatologists should consider when addressing patients with advanced chronic liver disease (ACLD) based on liver disease etiology, the stage of liver cirrhosis and its portal hypertension development-related complications.

Topics of interest include, but are not limited to, the following:

Evaluation of the nutritional status and management of patients listed for orthotopic liver transplantation.

Role of bariatric surgery in obese patients listed for orthotopic liver transplantation before, during and after.

Branched-chain amino acids (BCAA) in compensated and decompensated advanced chronic liver disease (ACLD).

Commercial diets, meal replacements and newly intermittent fasting diets: applicability and evidence in patients with chronic liver diseases.

The role of vitamin D deficit and supplementation in chronic liver diseases.

Late evening snacks in patients with ACLD.

Original contributions, epidemiological studies, narrative and systematic reviews and meta-analyses are all welcome.

USA

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (*Nutrition & Dietetics*) / CiteScore - Q1 (*Nutrition and Dietetics*)

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
