

Highly Pathogenic Viruses: Challenges for Diagnostics Development and Drug Discovery

Guest Editors:

Prof. Dr. Cristiano Salata

Department of Molecular
Medicine, University of Padova,
35122 Padova, Italy

Dr. Ilaria Frasson

Department of Molecular
Medicine, University of Padova,
35122 Padova, Italy

Deadline for manuscript
submissions:

closed (20 October 2023)

Message from the Guest Editors

This Special Issue aims to collect reviews and research articles focusing on:

- (i) new diagnostics
- (ii) well-established viral models and molecular tools for drug discovery
- (iii) innovative technologies in drug discovery for highly pathogenic viruses
- (iv) new strategies to overcome the limitations imposed by the manipulation of highly pathogenic viruses in BSL-3 and -4 facilities
- (v) biosafety issues in diagnostics development and drug discovery

We look forward to your contributions.

an Open Access Journal by MDPI

Prof. Dr. Lawrence S. Young

Warwick Medical School,
University of Warwick, Coventry
CV4 7AL, UK

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics. *Pathogens* is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*General Immunology and Microbiology*)
