Message from the Guest Editor

Dear Colleagues,

This Special Issue focuses on the state of the art, and the latest developments in 3D printing of drug formulations, as well as providing future directions. This is needed to bring more of the additive manufacturing techniques in preparation of small batches of customized and on-demand formulations for the treatment of patients with rare diseases or for clinical trials. In addition, mass production methods, such as that for Spritam, using other 3DP types are needed to allow for a large number of patients to benefit from the unique features of 3D-printed formulations.

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

*Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Pharmaceutical Science*)
