Message from the Guest Editors

Nanotechnology has begun to play an essential role in biomedical applications, especially smart biodegradable nanostructures used for drug delivery. These structures can release the action in response to specific environmental stimuli, improving its therapeutic effect and protecting it from external factors. The present Special Issue intends to provide an overview of the most novelty polymeric nanostructures developed for drug delivery. We will emphasize primary wall materials, new encapsulation methods, the formation of novel nanostructures, and in vitro and in vivo release tests, in which its effectiveness in protection, smart delivery, and the improvement of bioavailability is verified.

Deadline for manuscript submissions:

closed (20 November 2023)

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Pharmaceutical Science*)
