Message from the Guest Editor

Natural products have been used for healing purposes since the dawn of mankind. Knowledge about medicinal plants has evolved over the centuries, now allowing for the industrial-scale production of plant-derived drugs. Historically, phytochemicals have contributed significantly to the discovery of new analgesics, as illustrated by opioids and non-steroidal anti-inflammatory drugs, which are the basic pharmacological classes for current pain management and were developed from plant-derived compounds. In this context, the special issue "Analgesic Phytochemicals and their Medicinal Potential" invites researchers to contribute original research articles and review articles related to plant-derived analgesic compounds with potential for the drug discovery process. Topics of interest include the pharmacological characterization of phytochemicals in experimental models of pain, studies of mechanism of action, pharmacokinetic profile, adverse effects and toxicity, isolation and identification of new analgesic phytochemicals, pharmaceutical technology of analgesic phytochemicals, and clinical trials.

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química e Bioquímica (CQB), Faculdade de Ciências, Universidade de Lisboa (FCUL), Rua Ernesto de Vasconcelos, Campo Grande, Edifício C8, 5º Piso, 1749-016 Lisboa, Portugal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Pharmaceutical Science*)
