Message from the Guest Editors

Dear Colleagues,

In recent years, gut microbiota has been intensively explored at various levels. With the advent of multi-omics techniques such as metagenomics and metatranscriptomics, the structure and function of the microbiota have begun to be understood. Given that 70–80% of immune cells are found in the gut, it is clear what a major impact this “super organ” has on health.

Topics to be covered within this Special Issue include (but are not limited to):

- Novel probiotic strains;
- Influence of probiotics and/or bioactive compounds on gut microbiota modulation;
- Influence of probiotics and/or bioactive compounds in health and disease states;
- Signaling pathways mediating probiotics-host effects;
- Safety and regulations for the use of probiotics;
- Bioactive compounds able to modulate the gut microbiota and generated by fermentation/enzyme hydrolyses or food processing methods.

Contributions of original research to review articles are welcome.

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Pharmaceutical Science*)
