Message from the Guest Editors

Dear Colleagues,

Recent estimates shows that non-communicable diseases (NCDs) are responsible for the majority of deaths worldwide. Historically, plants are important therapeutic and preventive agents. In addition, it represents one of the natural arsenal of medicines that can be effectively harnessed to treat, prevent and manage inflammation, oxidative stress and tumor developments. There is growing volume of scientific evidence that plants or products derived from them might have a role to play in suppressing acute and chronic inflammations, effect sometimes attributed to their in vivo antioxidants properties. Another interesting fact about flowering plants is the use of some of species as supplements or “nutraceuticals” with promising preclinical and epidemiological studies pointing to their efficacy and safety. This Special Issue is dedicated to highlighting important medicinal flowering plants with substantial pre-clinical and clinical evidence for their efficacy in the prevention or treatments of inflammation and cancer/antitumor activities. In this context, we invite investigators to submit both original research and review articles that explore these aspects.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química e Bioquímica (CQB), Faculdade de Ciências, Universidade de Lisboa (FCUL), Rua Ernesto de Vasconcelos, Campo Grande, Edifício C8, 5º Piso, 1749-016 Lisboa, Portugal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Pharmaceutical Science*)
