Greece

Deadline for manuscript
submissions:

closed (30 September 2018)

Message from the Guest Editor

Nano-sized drug delivery systems have been widely studied during the last three decades. The renewed optimism in the field brought about by the introduction of nanoscience and nanotechnology in medicine, gave rise to the pursuit of additional goals such as triggered release, enhanced cell membrane permeation and, even, subcellular targeting. To date, more than fifty nanotherapeutics/nanoformulations have been approved, primarily based on liposomes, polymeric micelles or PEGylated peptides/proteins, and even more are currently under clinical investigation. Further advances are anticipated by the use of appropriate mathematical modeling and computer science, including artificial neural networks, that are emerging to facilitate further understanding of the complex processes related to drug delivery.

In this Special Issue of *Pharmaceuticals*, both research, mini-review and review articles advancing our knowledge on nano-sized drug delivery systems are invited. Topics include, but are not limited to:

- nano-sized systems
- drug encapsulation
- drug targeting
- biodistribution
- controlled release
- triggered release

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química e Bioquímica (CQB), Faculdade de Ciências, Universidade de Lisboa (FCUL), Rua Ernesto de Vasconcelos, Campo Grande, Edifício C8, 5º Piso, 1749-016 Lisboa, Portugal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Pharmaceutical Science*)
