Message from the Guest Editor

Dear Colleagues,

We are pleased to announce the launch of a new Special Issue of *Pharmaceutics* entitled “Delivery of Anticancer Drugs”.

Despite many recent advances in both small-molecule and biological therapies, there persists the challenge of maintaining drug efficacy by ensuring that the drug reaches the tumor target.

Delivery of anticancer drugs selectively and effectively to the tumor site can be challenging for a number of reasons, including the tumor microenvironment, poor localized vasculature, and barriers to drug penetration, such as the location of the tumor, cellular drug efflux mechanisms, or dense stromal tissue layers.

The Special Issue aims to highlight the latest pharmaceutical research in developing methods for effective delivery of anticancer drugs to tumors, including approaches such as drug conjugates, polymeric or biological carriers, nanoparticles, and tumor-selective prodrugs.

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
