# Novel Nanoscale Biomaterials for Targeted Drug Delivery and Cancer Therapy

Guest Editor:

#### Dr. George Pasparakis

Department of Chemical Engineering, University of Patras, Caratheodory 1, University Campus, Patras, Greece

Deadline for manuscript submissions: closed (10 June 2023)

### Message from the Guest Editor

Nanoscale biomaterials constitute a novel class of materials with promising potential towards more effective targeted cancer therapies. These systems comprise hard (i.e., metallic, ceramic, etc.) and soft (i.e., lipids, polymers, nanomaterials with unique physicochemical etc.) properties that can be harnessed either to augment the therapeutic potency of existing drug molecules and biologics (i.e., as controlled drug delivery nanovehicles) or for their own intrinsic cytotoxic properties (i.e., the generation of reactive oxygen species, thermally induced cell apoptosis/necrosis, etc.). The possibility to combine these properties under nanoscale confinement opens up entirely new therapeutic possibilities for combinational therapies as well as bioimaging and theranostic applications.

This Special Issue welcomes manuscripts focusing on nanoscale biomaterials for precision oncology based on metallic nanoparticles, nanoceramics, self-assembled polymers and nanogels, and lipid- and/or liposome-based nanoparticles as dispersed nanoformulations or as injectable/implantable depots.

#### Prof. Dr. Patrick J. Sinko

Department of Pharmaceutics, Ernest Mario School of Pharmacy, Rutgers University, Piscataway, NJ 08854, USA

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

# **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
