Deadline for manuscript
submissions:

30 June 2024

Message from the Guest Editor

Dear Colleagues,

Magnetic nanoparticle applications in the domain of personalized medicine through diagnosis and therapy have attracted tremendous interest in the scientific community. These nanoparticles are highly stable and have been successfully studied for the delivery of hydrophobic and hydrophilic entities in combination with real-time monitoring and targeted release under the application of a magnetic field. This behavior is the start of a big roadmap about the mechanisms of magnetic nanoparticle cell interactions. Different parameters will be taken into consideration like shape, size composition and surface chemistry.

In this Special Issue, we kindly invite authors to report experimental and theoretical results about novel magnetic nanoparticles and their mechanisms on drug release, mechanism diagnosis and therapy.

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
