Message from the Guest Editors

Dear Colleagues,

The increasing clinical interest in advanced and innovative delivery systems for targeted therapy of the esophagus is driven by the rising prevalence of several diseases such as esophagitis, GERD, Barrett's esophagus and esophageal cancer in recent years. Addressing this demanding therapeutic challenge requires not only advances in formulation and device development, but also the advancement of modern pharmaceutical processes and technical solutions to enable precise biopharmaceutical causal drug targeting. The development of novel test methods for the pharmacokinetic and pharmacodynamic evaluation of new therapeutic concepts for the esophagus is also of great interest for this issue.

As guest editors, we invite researchers to submit their work for the Special Issue of *Pharmaceutics* entitled "Innovative Dosage Forms for Esophageal Drug Delivery", which will address all multidisciplinary approaches that contribute to overcoming the complex challenge of targeted pharmacotherapy in the esophagus. Both research papers and reviews are welcome for publication.

We look forward to receiving your contributions.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
