Message from the Guest Editors

Dear Colleagues,

We are planning to publish a Special Issue based on “Lipid-Based Nanoparticles for Drug Delivery in Cancer” in the journal *Pharmaceutics*.

Often, cancer chemotherapy encounters several obstacles such as severe side effects, low specificity and stability, and a high incidence of drug-resistant tumor cells. Recently, the attention of researchers has mainly been focused on overcoming multidrug resistance, considered the main cause of chemotherapy failure. The use of nanotechnology and, in particular, of lipid-based nanoparticles as a drug delivery system is promising for avoiding these problems in many tumor types.

Authors are kindly invited to submit original papers, communications, and reviews regarding the potential applications of lipid-based nanocarriers as drug delivery systems for cancer therapy to be published in this Special Issue of *Pharmaceutics*. We look forward to receiving your contributions.

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
