Message from the Guest Editors

Dear Colleagues,

Drug delivery to animals can be challenging due to differences in physiology, leading to variable drug absorption and effectiveness. This Special Issue focuses on cutting-edged efforts in the development of innovative delivery strategies for existing therapeutics and potential drug candidates for the diagnosis and treatment of various diseases in animals. The lack of literature precedence in this specific field of advanced drug delivery to animals remains a primary obstacle in the development of veterinary products. As a result, this Special Issue also draws attention to the key characteristic of effective delivery approaches for animals and gathers up-to-day scientific knowledge on the application of human pharmaceuticals to veterinary products.

Specialized knowledge is indispensable in addressing these issues and developing effective drug delivery systems for animals.

For this Special Issue, original research articles and reviews are welcome.

We look forward to receiving your contributions.

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
