Deadline for manuscript submissions:
31 March 2024

Message from the Guest Editors

Dear Colleagues,

The main goal of this Special Issue is to provide a comprehensive collection of the most recent advances in research related to the biopolymers and their applications in medical and pharmaceutical fields. Biopolymers and their composites attract special attention due to their unique properties, biocompatibility, versatility, and flexible nature. They can be prepared into various forms such as micro/nanoparticles, 3D scaffolds, hydrogels, and films, or they can be combined with other materials depending on the application demands. This Special Issue will bring together experts from materials science, chemistry, biology, pharmacy, medicine, physics, nanotechnology, etc., to review the current state of the art and to express outstanding research needs related to this topic. Multidisciplinary research relating to advances in the production, characterization, and applications of biopolymers, as well as the design of effective drug delivery systems, tissue engineering, wound healing, cell therapy, and other themes not limited to this, is welcomed.

We look forward to receiving your contributions.

Dr. Magdalena Stevanović

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
