Message from the Guest Editor

Dear Colleagues,

We are pleased to invite you to contribute to a Special Issue of *Pharmaceutics* entitled, “Nanotechnology for Drug and Vaccine Delivery”. Nanotechnology-based delivery strategies offer important advantages over conventional delivery platforms for therapeutics and vaccines.

This Special Issue aims to cover applications of nanotechnology in the advancement of drugs, vaccines, and targeted delivery systems.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: the design and evaluation of nanoparticle-based delivery systems for chemotherapeutics, proteins, and genes (siRNA, DNA, and mRNA), and their applications in vaccination, cancer therapy, antimicrobial and antiviral activities, wound healing, or tissue regeneration.

I look forward to receiving your contributions.

Dr. Jie Tang

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
