### Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to provide an overview of the current findings regarding novel approaches in the search for active compounds with potential applications as novel drug candidates or adjuvants. In particular, we welcome research articles comprising aspects related to the synthesis, biological evaluation, and physico-chemistry of potential drug hits or the development of new methods in the drug discovery and development field.

In this Special Issue, both original research articles and reviews are welcome. Research areas may include (but are not limited to) the following topics: bioorganic chemistry, organic synthesis, biosynthesis, multidrug resistance, ADMETox aspects, novel compounds, drug candidates, and pharmaceutical biotechnology. Additionally, we are eager to publish studies with use in expounding the synthesis of future drug candidates or adjuvants in the fight against multidrug-resistant conditions, as well as works regarding the use of non-usual elements in organic compounds, such as transition metals and rare earth elements or heavy semimetals like selenium, tellurium, arsenic and iodine.

Deadline for manuscript  
submissions:

**closed (1 April 2024)**

## Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
