31 August 2023

Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to collect papers related to all aspects regarding the development (process engineering, synthesis, characterization, theoretical modelling, etc.) of self-assembled amphiphilic copolymers and their application as new drug delivery systems. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Synthesis routes and property control;
- Fine tuning of amphiphilic copolymers' properties;
- Chemical modifications of amphiphilic copolymers;
- Process engineering of polymer matrices;
- Encapsulation and delivery of hydrophilic drugs from hydrophobic copolymers;
- Encapsulation and delivery of hydrophobic drugs from hydrophilic copolymers;
- Controlled drug delivery studies;
- Drug targeting

We look forward to receiving your contributions.

Dr. Ana Cazacu

Dr. Elena-Laura Ursu

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Pharmaceutical Science*)
