Message from the Guest Editors

Dear Colleagues,

This Special Issue is intended to collect recent research/discoveries in the field of cancer prospective metallopharmaceuticals. This is an area in constant evolution, and we welcome submissions (research papers/focused reviews) on subjects including, but not limited to:

- Synthetic methods/characterization and biological activity of novel metal-based compounds;
- Structure–activity studies;
- Drug delivery for metal-based compounds;
- Metal complexes overcoming MDR (metallo drug resistance to treatment);
- Mode of action, uptake, cell targets and (cyto)toxicity;
- Metal complexes as theranostics;
- Biospeciation of metal ions and anti-cancer metal-based compounds.

Dr. Andreia Marques Valente

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
