Deadline for manuscript submissions:

closed (20 May 2023)

Message from the Guest Editors

Dear Colleagues,

According to the World Health Organization (WHO), antimicrobial resistance (AMR) is one of the top ten global public health threats that humanity is facing, while in 2019 cancer disease became the leading cause of death in the industrialized countries. PDC therapeutics combine one or more small drug molecules conjugated, most often, to a cell-penetrating peptide (CPP) either directly or through a biodegradable linker. This integration of two bioactive elements into a single entity often provides novel functionalities and improved bioavailability to treat conditions where conventional drugs are ineffective.

With this Special Issue we would like to provide readers with the latest developments and innovations in the design and synthesis of peptide–drug conjugates that are used to target various infectious diseases and cancers. Therefore, we are interested in articles related to new chemical and conjugation strategies for developing efficient antimicrobial and anticancer PDCs using in vitro models, in vivo trials and with possible application in the pharmaceutical industry.

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
