Message from the Guest Editor

This Special Issue aims to present new trends in the use of innovative radionuclides and their applications in radiopharmacy. The physical or chemical properties of new radionuclides are sometimes unfavorable for the stability of the radiopharmaceuticals obtained with them, which limits their applications. Even if these radionuclides are recognized as being of interest by the scientific community, many questions remain to be answered. Is the growing application of actinium [^{225}Ac] radiolabeled peptides, which are characterized by rapid pharmacokinetic distribution and elimination phases, extensible to other vectors currently used in internal radiotherapy? Is radioactive filiation compatible with non-internalized radiopharmaceuticals? What will be the place of [^{211}At]-Astatine, currently studied at the preclinical level? Are the physical properties of [^{64}Cu]-Copper and its particular metabolism interesting compared with [^{89}Zr]-Zirconium? This Special Issue aims to address these questions, in order to elucidate the future applications of these radionuclides in radiopharmacy.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Department of Pharmaceutics,
Ernest Mario School of
Pharmacy, Rutgers University,
Piscataway, NJ 08854, USA

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q1 (*Pharmaceutical Science*)
