an Open Access Journal by MDPI

## Editorial Board Members' Collection Series: Photonics Sensors

Guest Editors:

**Dr. Carlos Marques**

CICECO-Aveiro Institute of  
Materials, Physics Department,  
University of Aveiro, Aveiro,  
Portugal

**Dr. Flavio Esposito**

Department of Engineering,  
University of Naples  
"Parthenope", 80143 Naples, Italy

Deadline for manuscript  
submissions:

**30 June 2024**

### Message from the Guest Editors

Photonics sensors have attracted wide interest in countless domains, including aerospace, food processing, high-energy physics experiments, environmental monitoring, medicine, the nuclear industry, oil and gas, railways, and structural health monitoring. Here, photonics sensors bring several advantages, such as high-sensitivity and -resolution measurements, small size and weight, immunity to electromagnetic interferences, resistance to harsh environments, long-distance monitoring, and high multiplexing capability.

This Special Issue will focus on the latest developments and trends in photonics sensors, covering recent improvements in related theory, design, fabrication, and application/validation. We encourage you to submit original research papers, communications, and review articles in order to provide a useful insight into the present status and future outlooks in this area. We look forward to receiving your contributions.
