Ultrafast Laser Written Photonic, Sensing and Microfluidic Circuits in Transparent Materials

Guest Editors:

Dr. Ottavia Jedrkiewicz

Istituto di Fotonica e
Nanotecnologie, CNR, Como,
Italy

Prof. Roberta Ramponi

Institute for Photonics and
Nanotechnologies (IFN) – CNR,
Politecnico di Milano, Milano,
Italy

Message from the Guest Editors

This special issue aims to highlight the most recent progress in the field of ultrafast laser written optical components in transparent materials for different applications. Contributions that explore advanced laser writing techniques as well as those that discuss innovative photonic, sensing or microfluidic devices, and integrated platforms, will be welcomed.
