

plants

an Open Access Journal by MDPI

Cereal Physiology and Breeding

Guest Editors:

Dr. Gustavo A. Slafer

Department of Crop and Forest Sciences, University of Lleida, AGROTECNIO Center, Av. Rovira Roure 191, 25198 Lleida, Spain

Dr. Ernesto Igartua

Estación Experimental de Aula Dei, EEAD-CSIC, Avenida Montañana 1005, 50059 Zaragoza, Spain

Dr. Iker Aranjuelo

Agrobiotechnology Institute (IdAB-CSIC)-Gobierno de Navarra, Campus de Arrosadia, E-31192 Mutilva, Baja, Spain

Message from the Guest Editors

The main goal of the current Special Issue is to publish papers focused on physiological and genetic approaches, aiming at increasing both the actual and the potential productivity of cereals, closing the yield gap in stressful conditions, and increasing the nutritional quality and healthiness of cereal products. Topics covered will encompass understanding the physiological and molecular bases of cereal productivity, germplasm mining for relevant traits, improving productivity or quality of cereal crops via pre-breeding and breeding approaches, particularly considering the climate change perspectives. Within this context, multidisciplinary approaches, related to agronomy, physiology, high-throughput phenotyping, genomics, metabolomics, etc., will be welcomed.

Deadline for manuscript submissions:

closed (15 April 2021)

Special Issue

plants

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Dilantha Fernando

Department of Plant Science,
University of Manitoba, Winnipeg,
MB R3T 2N2, Canada

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Plant Sciences*) / CiteScore - Q1 (*Plant Science*)
