Message from the Collection Editor

Dear Colleagues,

This Topical Collection, entitled “Feature Papers in Plant–Soil Interactions”, aims to present a collection of high-quality original research articles, short communications, and review articles on the phenotypic, anatomical, morphological, physiological, cytological, histological, genetic, biochemical, molecular, and chemical aspects of and processes occurring at the interfaces between plants, roots, soil organisms (micro-organisms, fungi, and fauna), and organic and inorganic soil components.

Prof. Dr. Dilantha Fernando

Department of Plant Science,
University of Manitoba, Winnipeg,
MB R3T 2N2, Canada

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Plant Sciences*) / CiteScore - Q1 (*Plant Science*)
