Strathclyde, Glasgow G4 0RE, UK

Message from the Collection Editor

Dear Colleagues,

This Topical Collection aims to provide a comprehensive overview of New Trends in UK Plant Science by inviting contributions (full research articles and systematic reviews) from UK research institutes/laboratories that will consolidate our understanding of this area. Potential topics include but are not limited to drug discovery from plants, phytochemistry, food production, plant–microbe interactions, plant pests and diseases, plant ecology, plant biology, plant ‘omics’, plant physiology, plant genetics, plant breeding, and plant cell culture.

Editor-in-Chief

Prof. Dr. Dilantha Fernando

Department of Plant Science,
University of Manitoba, Winnipeg,
MB R3T 2N2, Canada

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Plant Sciences*) / CiteScore - Q1 (*Plant Science*)
