Deadline for manuscript  
submissions:

**closed (30 October 2019)**

### **Message from the Guest Editor**

Invasive plants can now be found all over the world. In some areas, the presence of these species has led to striking changes; in other cases, they have become inconspicuous parts of the vegetation. Sometimes, they have effects that are clearly negative from a nature conservation point of view, and in some areas, they cause severe economic costs or human health problems. These impacts make biological invasions an important topic urgently calling for research on its applied aspects. Topics of high priority in this respect are related to finding more efficient ways for the prevention of new invasions and management of already established species.

For this Special Issue, we invite manuscripts (original research papers, perspectives, hypotheses, opinions, reviews, modeling approaches, and method papers) covering the whole breadth of research topics related to invasive plants.

## Editor-in-Chief

### **Prof. Dr. Dilantha Fernando**

Department of Plant Science,  
University of Manitoba, Winnipeg,  
MB R3T 2N2, Canada

## Message from the Editor-in-Chief

*Plants* is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Plant Sciences*) / CiteScore - Q1 (*Plant Science*)
