Deadline for manuscript submissions:
closed (15 July 2023)

Message from the Guest Editors

With the development of material science and technology, polymer materials show great potential for application in the field of road. Polymer materials are also widely used in pavement maintenance and treatment, which can quickly restore road function and to extend the road service life. The application of functional polymer materials in the road pavement will not only meet the durability and stability requirements, but also achieve the requirements for green construction and lifecycle management of pavement, by reducing maintenance needs and volume of waste for disposal. The application of polymer materials in pavement design will fall within the scope of this Special Issue.

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.
Journal Rank: JCR - Q1 (*Polymer Science*) / CiteScore - Q1 (*Polymers and Plastics*)
