submissions:

closed (1 February 2013)

Message from the Guest Editor

Dear Colleagues,

This issue covers all aspects of ring opening polymerization (ROP) including cationic, anionic, radical and enzyme-mediated ROP as well as ring-opening metathesis polymerization. Contributions focusing on initiators, new monomers or copolymers, changes in reaction mechanism, new polymers and materials prepared by ROP are welcome.

Prof. Dr. Michael R. Buchmeiser

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (*Polymer Science*) / CiteScore - Q1 (*Polymers and Plastics*)
