

processes

Dear Colleagues,

We are pleased to announce the two winners of 2019 *Processes* Travel Awards (800 Swiss Francs each), given to **Dr. Pratham Arora**, a postdoctoral fellow at the Georgia Institute of Technology, USA, and **Ms. Grazia Leonzio**, a Ph.D. student at the University of L'Aquila, Italy.

2019 TRAVEL AWARDS WINNERS

Dr. Arora's research focuses on process modelling and simulation. He plans to attend the Foundations of Computer-Aided Process Design (FOCAPD 2019) in Copper Mountain, USA, to present his work entitled "Hydrothermal liquifaction of algae for bio-crude production: Effects of CO₂ sourcing on economics and LCA."

Ms. Leonzio works on modeling and process simulation of chemical processes, carbon capture, storage and utilization. She plans to attend the 29th European Symposium on Computer-Aided Process Engineering (ESCAPE-29) in Eindhoven, The Netherlands, to present her work entitled "Innovative application of statistical analysis for the optimization of CO₂ absorption from flue gas with ionic liquid".

Congratulations to **Dr. Arora** and **Ms. Leonzio**. We are grateful to all who submitted applications.

Evaluation Committee:

Prof. Michael A. Henson

Prof. Juergen Hahn

Prof. Martha A. Grover

Prof. John D. Hedengren
