### Message from the Guest Editors

The intention is that the Special Issue will contain a number of survey papers, alongside those which are narrower in focus and perhaps are future-looking with some novel elements, but still contain an element of survey contribution in their writing. Surveys could cover a broad range of issues, including those focusing on: i) application; ii) control methodology; iii) education; iv) industrial practice; and v) more.

Deadline for manuscript  
submissions:

**31 July 2024**

## Message from the Editor-in-Chief

*Processes* (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

## Author Benefits
