Deadline for manuscript
submissions:

closed (15 January 2024)

Message from the Guest Editors

This Special Issue on “Applications of Chromatographic Separation Techniques in Food and Chemistry” aims to curate novel advances in the development and application of chromatographic separation techniques in food and chemical analyses. Topics include but are not limited to:

- Chromatographic techniques used in ascertaining food quality and authenticity;
- Chromatographic analysis of food additives including food preservatives, antioxidants, sweeteners, colors, etc.;
- Basic research and applications of chromatographic techniques in chemistry;
- The development of new chromatographic methods in the analysis of food and chemical compounds, including bioactive molecules;
- Chromatography as separation technique useful in the chemical process industry; for analysis, isolation, and purification of various chemical compounds as the components of small- and large-scale production.

Original research papers as well as reviews related to the areas mentioned above are most welcome.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
