Dr. Peter Clough

Dr. Aman Dhir

Dr. Navid Khallaghi

Deadline for manuscript submissions:

closed (31 July 2021)

Message from the Guest Editors

This Special Issue on "Energy Conversion and Storage Processes" aims to curate novel advances in the energy-related field studies, mainly focused on optimisation and analysis of different methods of conversion and storage. Topics include but are not limited to:

- Experimental and modelling studies of energy conversion methods;
- Experimental and modelling studies of energy storage methods;
- Experimental and modelling studies of renewable energy productions; and
- Data analysis and machine learning applications in energy-related subjects.

Editor-in-Chief

Prof. Dr. Giancarlo CravottoDepartment of Drug Science and

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus,

SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous*))
