Feature Papers on Chemical Processes and Systems

Guest Editor:

Dr. Chanaka Navarathna

Department of Civil and
Environmental Engineering, Rice
University, Houston, TX 77005,
USA

Deadline for manuscript
submissions:

closed (28 February 2024)

Message from the Guest Editor

This Special Issue, "Feature Papers on Chemical Processes and Systems", presents a collection of cutting-edge research articles that delve into the latest advancements and innovative approaches within the field of chemical processes and systems. This compilation showcases a wide range of topics, providing a comprehensive overview of the ongoing developments in this dynamic field.

This Special Issue offers a comprehensive and diverse collection of research articles that encapsulate the latest advancements in the field. It provides valuable insights into process optimization, catalysis and reaction engineering, process intensification, sustainability considerations, and process safety, serving as a valuable resource for researchers, engineers, and professionals seeking to stay abreast of the latest developments in chemical processes and systems.

- chemical process optimization
- reaction kinetics
- process intensification
- chemical manufacturing
- industrial applications

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
