Mathematical Modeling of Drying Kinetics in Food and Biomass Processing

Guest Editors:

Dr. Ashutosh Singh
School of Engineering, University of Guelph, Guelph, ON N1G 2W1, Canada

Dr. Gopu Raveendran Nair
Agricultural and Biological Engineering Department, University of Illinois Urbana Champaign, Champaign, IL 61801, USA

Dr. Winny Routray
Department of Food Process Engineering, National Institute of Technology Rourkela, Sundargarh 769008, Odisha, India

Deadline for manuscript submissions:
15 June 2024

Message from the Guest Editors

This Special Issue titled "Mathematical Modeling of Drying Kinetics in Food and Biomass Processing" invites high-quality research articles on the mathematical modeling of various drying methods, such as oven drying, solar drying, infrared drying, radiofrequency drying, microwave drying, ohmic heating, high-electric-field drying or similar drying systems for a variety of food and biomass.

Special Issue

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto
Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus,
SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.
Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
