# Conventional and Novel Processes for the Extraction of Precious Metals from Spent Catalyst and Electronic Equipment

Guest Editors:

Message from the Guest Editors

Dr. Paolo Trucillo

This Special Issue will collect works regarding these topics:

Prof. Dr. Amedeo Lancia

Prof. Dr. Francesco Di Natale

Deadline for manuscript submissions:

31 July 2024

- Pyrometallurgy of PM recovery from waste catalyst and electric devices
- Leaching of precious metals from spent catalytic converters
- Selective leaching of precious metals from waste electric and electronic devices
- Sustainable recycling and reuse of waste catalyst and electric devices
- CFD in hydrometallurgical processes
- Economic analysis of precious metals extraction and recovery processes
- Definition of metals leaching models and kinetics
- Metal adsorption kinetics and models
- Solvent extraction of precious metals
- Ion exchange techniques
- Application of electrochemical processes
- Alternative techniques for eco-friendly leaching of precious metals
- LCA analysis of PM recovery from spent catalysts and electronic equipment

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

# **Message from the Editor-in-Chief**

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus,

SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous*))
