Message from the Guest Editor

This Special Issue will include original research and reviews related to recent advances in chemical characterization, pharmacological applications and synthetic biology of natural products. Papers may address the construction of engineered microorganisms using synthetic biology approaches, structural elucidation and green preparation of bioactive substances and their role in the treatment of chronic diseases.

Keywords:

- natural products
- synthetic biology
- bioactive components
- green manufacturing
- therapeutic effect
- pharmacology
- chronic diseases
- medicinal plants
- microalgae
- engineered microorganisms

Deadline for manuscript
submissions:

30 June 2024

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
