Message from the Guest Editors

This Special Issue on “Advances in Green Extraction Processes of Bioactive Compounds” aims to bring together novel advances in green extraction processes, and to evaluate the bioactive compounds from plant resources and by-products, as well as analyzing the use of plants in the development of new products with a sustainable approach.

Topics can include, but are not limited to:

- Novel and ecofriendly processes for the recovery of valuable bioactive compounds;
- The chemical and functional characterization of bioactive compounds in different systems;
- Nutraceuticals, functional foods, and dietary supplements related to green extraction processes;
- The development of new herbal drugs;
- The use and application of bioactive compounds from plant materials;
- Agrobiodiversity management through appropriate strategies of plant exploitation.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access:— free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
