Novel Materials/Technologies for the Adsorption and Removal of Antibiotics from Aqueous Solution

Guest Editors:

Dr. Zhaoyang Wang

Institute of Environmental Engineering, School of Earth and Environmental Sciences, Lanzhou University, Lanzhou 730000, China

Prof. Dr. Hao Xu

Department of Environmental Science and Engineering, School of Energy and Power Engineering, Xi'an Jiaotong University, Xi'an 710049, China

Prof. Dr. Yan Feng

School of Civil Engineering and Architecture, University of Jinan, Jinan 250022, China **Message from the Guest Editors**

This Special Issue on "Novel Materials/Technologies for the Adsorption and Removal of Antibiotics from Aqueous Solution" seeks high-quality works focusing on the latest novel materials and technologies for the removal of antibiotics from water. Topics include but are not limited to:

- Novel adsorption materials (ceramic, carbon and/or composites) and performance application;
- Novel physical/chemical/biological technologies for antibiotic removal;
- Antibiotic-removal process mechanism, application, and modeling;
- Traceability and risk assessment for antibiotic contaminants.

Deadline for manuscript submissions: closed (31 December 2023)

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and Technology, University of Turin, Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions. **High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases. **Journal Rank:** JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering* (miscellaneous))
