#### Dr. Paula Varandas Ferreira

ALGORITMI Research Center, University of Minho, Campus de Azurém, Guimarães, 4710-057 Braga, Portugal

#### Dr. Wei Cai

College of Engineering and Technology, Southwest University, Chongqing 400715, China

Deadline for manuscript submissions:

closed (10 March 2022)

# **Message from the Guest Editors**

In this Special Issue, departing from the idea that the sustainability of energy policy interventions does not stand alone but derive from changes in the techno-socio-economic structures, we aim to bring together contributions from scholars working in different but energy-related topics in order to provide a holistic view on how to overcome those challenges and to attain sustainable energy systems. This would allow a more informed energy policy design, contributing to achieve a more sustainable and inclusive development as well as to reach a just energy transition, where a more participatory approach from citizens and communities in this transition process is deemed essential.

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus,

SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous*))
